RESOURCES:

FILM:

I'm skilled in green screen, 2nd Unit work and Family Entertainment. I am particularly skilled in directing actors. I have experience in practical effects and in setting up plates. I can add a bit of action to a segment that might otherwise be nothing more than a talking head, in some cases, with little or no added cost. Furthermore, I can put the right team together for the right show and use each member of the team to his or her fullest potential. I have physical resources and professional contacts all over the U.S. and around the world. My name is listed on the Film Board Resource Lists of several states.

THEATRE:

Particularly adept with touring shows, staged violence and theatre for children. I prefer shows with lots of spectacle but I can create spectacle on a budget; and I've certainly done my share of "black box"/minimalist theatre. I have vast experience as a TD, FD, FX Artist and Master Puppeteer, this gives me a unique perspective as a Director. I have consistently done a great deal with very little money. I can build anything... and I always find "a way".
